SUMMARY

Data and research analyst with 5+ years of experience owning the full survey research lifecycle — study design, data collection, weighting, and analysis — and translating findings into client-facing reporting for brand executives. Computer Science graduate building toward a SQL/Python/Tableau-focused analytics career, with hands-on personal projects in NLP and data visualization.

SKILLS

Technical: SQL • Python (pandas, NumPy, scikit-learn, matplotlib) • Tableau • Power BI • Excel (advanced) • PowerPoint
Research & Analysis: Survey design & programming • Data cleaning & weighting • Data visualization • Sentiment/text analysis • Stakeholder reporting

EXPERIENCE

Data / Research Analyst — *Media Predict (Remote)*

May 2021 – Jul 2026

Promoted from Research Associate to Analyst, May 2022 • Role ended when the company closed, July 2026

- Own the full survey lifecycle — study design, survey programming, live-fielding QA (filters/routers, demographic quotas), data cleaning, weighting to target population, and analysis — for research delivered to client executives.
- Designed 2 surveys from concept to launch and fielded roughly one study per month, maintaining clean, weighted datasets averaging ~1,000 respondents each.
- Streamlined a recurring client report, cutting turnaround time from 8 hours to 30 minutes.
- Delivered roughly monthly tracking reports across 10 geographies (Texas, Arizona, Pennsylvania, Michigan, Nevada, Florida, Wisconsin, National, Houston, Dallas) throughout a year-long, multi-state 2024 U.S. General Election tracking study cited by Politico and WHYY, as part of a 3-person team.
- Produced research for clients including TelevisaUnivision, H-E-B, Jersey Mike's, and Lume Cannabis Co.; informally trained colleagues on the company's proprietary research platform.

Customer Success Specialist — *Homebase*

Jan 2020 – Mar 2020

- Served as in-house product expert, running live product demos for prospective customers in a role spanning sales and technical support; role ended in a COVID-19 layoff.

PROJECTS

Sentiment Analysis of Amazon Product Reviews — github.com/dallin91/Sentiment_Analysis_Project

- Built a RoBERTa-based NLP model to classify product reviews as positive, negative, or neutral; validated classification accuracy against each review's star rating.

Streaming Service Value-for-Money Analysis — github.com/dallin91/streaming-service-analysis-2026

- SQL and Tableau analysis comparing streaming subscription cost against usage value to inform a real-world spending decision.

EDUCATION

B.S., Computer Science — Western Governors University

2019 – 2023

B.A., Political Science — Brigham Young University

2009 – 2016
